

## **SIGNIFICANT POINTS OF INFORMATION**

### **SOURCES OF FUNDING**

1. Office of Public School Construction – School Facilities Grant: Funds classrooms and general student service areas
2. Savings accumulated over 15 years from General Funds: Funds additional space needed for administration of all CCOE programs

### **REQUIREMENTS FOR ELIGIBILITY FOR STATE FUNDING**

1. Analysis of ability to pay, based on tax base (County Offices have no tax base, so classified as financial hardship)
2. Analysis of unhoused students, current and projected
3. Site acquisition funding and improvements (street, water, sewer)
4. Submission of request for funding to State
5. Availability of State Building funds, authorized by the State Allocation Board

### **INITIAL FUNDING GOES TO PLANNING AND PURCHASE OF SITE**

1. Approvable building site, with clearance on a number of studies conducted and reported to the State
  - a. Geo-Hazard Report – Earthquake potential, soil stability
  - b. CEQA - Environmental
  - c. PEA – Soil Investigation
2. Handshake agreement with property owner, subject to appraisal
3. Space analysis and special relationships (project lay-out)
4. Design

### **EDUCATION CENTER COMPONENTS**

1. Classrooms for Special Education students (infant program, severely handicapped, adult transition)
2. Classrooms for Community School students (alternative education option for students who have been referred by Probation or a school district or by parent request)
3. A multipurpose room for physical activities and meal service, as well as outdoor physical education activities
4. Offices for services personnel in Administrative Services, Business Services, Children's Services, Special Education, and Student Support Services

5. Meeting space for county and district coordination of services and activities
6. An outdoor theater for student and community performances
7. A cutting-edge child care facility that promotes quality practices in child development and learning

**ADDITIONAL PLANNING ACTIVITIES**

1. CEQA hearing for final determination of site location
2. Office of Public School Construction approval of site
3. Conceptual schematics of site components
4. Committee analysis of space and design of facility
5. Re-application for State funding
